LIVE THE DREAM

July 28th, 2010 | Author: paulbart

WOW!

I've got to be honest with you here.

My partners have outdone themselves AGAIN!

They just unleashed a 5-video training series for F*R*E*E that will expose the following:

- * How a broke 21 year old kid \$20K in debt hit a 6-figure income at 22 years old making as much as \$12,000 in 4 hours.
- * How a foreclosed realtor generated over \$100,000 in her first 10 months online.
- * How a struggling networker increased his conversions over 67% with 1 simple website tweak.
- * How a bankrupt real estate developer hit \$1.5 million per year in his 2nd year of business.
- * They found a marketing wizard who generates up to 1,967 leads per day.
- * How a guy with ZERO internet marketing experience hit 134 leads PER DAY for FREE his first 4 months online.
- * 2 dudes sponsored 151 reps in 1 hour?!

Yeah, that's what you're getting from me today.

Unreal, I know! Click here before these guys come to their senses and start charging thousands of dollars for this training:

March 17th, 2010 | Author: paulbart

When marketing on the internet, sometimes you feel like your head is going to explode! The amount of tools, systems, and services out there will make your head spin which make promises of easy riches when you use them.

Every day, there seems to be another "magic tool" that pops up promising millions of visitors to your site and large sums of money in your bank account....effortlessly.

It can get overwhelming and take focus away from what you should be doing to build your business.

As you know, there are tools out there that not only make your life easier, but keep your business running on auto-pilot for you.

The trick is to know which ones to focus on and which ones to stay away from!

Let's go through the essentials which every top internet marketer depends on a daily basis to run their million dollar businesses...

1) Web Hosting

Obviously, without hosting, the internet would be a pretty boring place to hang out. If you have a domain name, you need a place to host it so others can find you.

Hosting companies out there range from free all the way to over \$500 a month for dedicated hosting.

The key is to find a company that provides 99% uptime and also provides 24/7 support in case you ever have a problem.

And of course, just like anything, you get what you pay for.

2) Auto-Responders

Have you heard the phrase, "The Money Is In The List?"

Well, having an autoresponder and building a list that knows, likes, and trusts you is the fastest way to literally pushing a button and having money coming in your bank account... faster than you can say... Hot Biscuits!

The formula is simple.

Create a page that gives something of huge value totally away for free. This could be a free report, a video lesson, an audio interview, or a live webinar.

Then, in exchange for your free information, the visitor will give you their name and email address.

And then the magic happens. You can follow up with them automatically and offer more value and even get them to buy something!

This is all done using an auto-responder, all automatically and efficiently for you.

Again, companies providing auto-responders range from \$20 a month up to \$99 a month.

3) Video Hosting

The internet is all about video. And without some type of video on your website, most people will simply not hang around.

Video allows you to bond with your visitor and create more trust than with just words on your site.

We've all heard of YouTube for sure. But is a free service that is known for pranks, jokes, and music videos the right image for your business?

There's a reason the top marketers host their videos through paid services and you should to.

4) Website Builder and Prospecting System

99% of internet marketers don't have the time and/or the skills to create their own websites or prospecting pages. Trying to learn website design and html code is not the best way to spend your time.

That's where website builders come in. You simply customize your pages with your own video, product info, auto-responder, and you're done!

5) Live Webcasts

The most powerful way to sell is face to face. You get instant feedback and customers can ask questions and get their answers immediately.

Since we don't want to meet all our visitors in person... Webcasts are the next best thing.

We can sit in the comfort of our own homes and present to people all over the world. Product demonstrations, video overviews, live questions and answers, it's all possible with Webcasts.

If you're not using Webcasts in your business, you are missing out on thousands of dollars of sales.

Typical companies charge between \$49 to \$99 a month and more.

The Top 5 Essential Tools

These are the top five tools that every top marketer uses and depends on a daily basis to make sales on auto-pilot.

And you can too.

Now, you can get all these great tools from different companies and pay between \$150 to over \$350 each and every month.

Or, you can make the smart decision and get them all from one company and save a huge amount of money.

GVO offers all these tools under one roof and for only \$1.45 a day. That's less than a Starbucks coffee!

And the best part is, for a limited time, you can take advantage of all these amazing tools and profit with them for a full 14 days for only a \$1.

Don't decide now, use all the tools and see how powerful they are and how they will help explode your business online right now.

WHAT'S THE BIG DEAL ABOUT GVO?

March 2nd, 2010 | Author: paulbart

What's the entire buzz about GVO?

GVO (Global Virtual Opportunities) formerly Kiosk is a company owned by Joel Therien who has a 12 year track of experience in the network marketing and internet marketing industries.

GVO has rapidly created a big buzz in the internet marketing and the MLM or Network marketing arenas due to the fact that it is the only company online that has the know how and the expertise to join

these two very important business models in a once in a lifetime opportunity.

Your product is your opportunity; but in order to build your business, you need tools and training. GVO provides all the essential tools in one package, unlimited web hosting, email, autoresponder, audio visual tools, video hosting, and internet marketing training. Unlike other web hosts, GVO is founded and run by internet marketers, and they won't shut your site down like other servers because they understand your business.

What makes GVO such an incredible business opportunity?

The answer to this question is twofold:

First of all when you get your hosting package through GVO you will get several services like unlimited autoresponder system, complete video marketing system with easy video producer and video hosting, full audio and video conferencing system, downtime monitoring software, that not only are included but that will also mean significant savings compared to buying all these services separately.

Second, you will have the opportunity to participate in a MLM compensation plan that is much more than a simple affiliate program and makes it an entire business in itself, let me explain:

How do I get compensated?

To motivate you to promote the business, GVO pays you 50% commission on the first month of every person that is directly sponsored by you.

Then we have the 2 x 10 Binary Hybrid Matrix Plan that will pay you 5% per month of up to levels down making this a full matrix of 2,046 people and that alone will earn you \$4,600.00 per month!

Wait! It gets even better because you will also get a 20% matching bonus on your personal referrals down to 10 levels.

Once you have a downline of 14 people or more then you earn a new profit position in the matrix that you can also make money off of.

What guarantees that people will stay?

If you have been online for some time and you are serious about building an internet business, you know that in today's market, these are tools that you or any internet marketer can't afford not to have and that you will be using on a daily basis and that is the key that makes the compensation plan a very successful one.

With this business model you will build an organization of avid and constant users who will be using the services everyday to run their businesses and therefore will be happy to keep paying their monthly fee!

How do I join?

At GVO we even give you the opportunity to try us and fall in love with our services before you commit to a longer stay.

Just pay \$1.00 today and this will give you full access to all the services and features for a full 14 day trial period.

Hope you find everything you are looking for under one roof with unsurpassed quality, see you inside!

ORRIN AND LAURIE WOODWARD COMING TO

Orrin and Laurie Woodward, founders of the TEAM are making a special appearance in Fresno, California. Here are event details:

When:

5:00p Saturday, December 12, 2009

Where:

Fresno Convention Center, Valdez Hall

700 M Street

Fresno, CA 93721

559-445-8100

The TEAM is the best leadership development system in MLM. As a student of MLM, there are many very good or great systems out there and many very good or great leaders. I follow people like Joe Schroeder, Joe Munzer and Kim Shahan, John DiLemme, Bo Short, Todd Falcone because even though i'm not in their system, they provide value. Those of you who are familiar with Mike Dillard, Magnetic Sponsoring, Brian Fanale and Norbert Orliewicz and the boys at MLMLSP, and Jonathan Budd are leaders in the online community.

You can learn much from any of these individuals. But what is more important than any individual is the System that you're in. Its not about Leaders developing a multitude of followers. Its about Leaders developing Leaders who develop other Leaders. You will not find a better personal growth and leadership development system than the TEAM. Period. The real product of any MLM is the personal growth and training program. It doesn't matter what the product is, or what the compensation plan is, because if you're not growing personally and building other leaders, you're not going to succeed in MLM. Period. You're not going to succeed in any business unless you grow and change with the times. Period. In my opinion, you will not be able to attract and keep people after recruiting them online unless you learn the ground combat skills in traditional old school MLM. That's because attraction marketing is about building relationships and adding value to other people. Its based on a mental mindset of servant leadership, not a "What's In It For Me (WIIFM) attitude.

Yeah, I know, its Fresno, in the Middle of the Winter. But this is the one live event that you won't want to miss!

Check out the new video from the TEAM on bridge bulding in this troubled economy at the TEAM's homepage [THE TEAM](#). There's a short pop up and make sure and watch it through all the way to end.

See y'all in Fresno!

Yours in success,

Paul
